

# CAN-Bus Integration by Connects2

...connecting to the aftermarket

"voted best CAN-Bus interfaces & best manufacturer"

These CAN-Bus interfaces allow the installation of additional devices into vehicles with a CAN-Bus system. The plug and play interface is designed to be used in the vehicle whilst keeping the original head unit fitted. The CAN-Bus interface provides feeds such as:

- 12V Ignition** - 12V Power for additional devices
- Illumination** - For devices with a dimming option
- Speedpulse** - Navigation installation
- Reverse** - Parking sensor installation
- Park Brake** - For multimedia installations

Allows a huge range of aftermarket installation options. Including: Parking Sensors, Rear View Cameras, Tow Bars, Navigation, Tracker Systems, Fleet Management Devices

Application Guide

| Make       | Model          | Year |      | Features |            |         |              |            |               | Connector | Part Number |
|------------|----------------|------|------|----------|------------|---------|--------------|------------|---------------|-----------|-------------|
